PROFILE

Senior Frontend/Full-Stack Engineer with 14+ years of experience designing and leading high-traffic products in React, React Native, Vue, and TypeScript. Background blends direct roles and outsourcing engagements — via Aubay, Amaris, Jobbex, Askblue, and Selbetti — embedded at enterprise clients, with a consistent focus on performance, accessibility (WCAG), and scalable architecture. Experienced working on nearshore projects across countries including Spain, the UK, the Netherlands, Germany, and others, collaborating closely with distributed teams. Strong track record partnering closely with Design Ops teams to build and maintain Design Systems, safeguarding brand visual identity across products. Proven ability leading teams, defining architecture, and implementing CI/CD, automated testing, and DevOps practices (Docker, Jenkins, GitHub Actions).

Years of hands-on experience by core technology: Vue.js 8+ years - Angular 8+ years - React 5+ years - TypeScript 5+ years - Node.js 3+ years.

TECHNICAL SKILLS

Languages & Frameworks: React 19, React Native, Vue.js (3/2), Angular 14/15, TypeScript, JavaScript, Node.js, Bun, Next.js, Nuxt.js, Nest.js, Hono, Express, HTML5, CSS3, Sass.

State & Tooling: Redux/Redux Toolkit, Pinia, Vuex, NGXS, Zod, Vite, Bun, Webpack, npm/pnpm/yarn/nvm.

APIs & Cloud: Cloudflare Workers/KV, Google Cloud Platform (GCP), Firebase, REST, GraphQL, WebSocket, Axios, Apollo, Fetch, HTTP, Socket.IO, Prisma, MongoDB, Betfair Exchange API.

Testing & QA: Playwright, Vitest, Jest, NUnit — automated unit and end-to-end test coverage.

DevOps & Methodologies: Git, Docker, Azure, CI/CD, GitHub Actions, GitHub Packages, Jenkins, Bitbucket, Husky, Scrum, Agile, Kanban, DDD, Microservices.

UI & Accessibility: Tailwind CSS, Framer Motion, Quasar, Vuetify, Material IO, MUI, Angular Material, Storybook, Design Systems, WCAG, Microfrontends.

LANGUAGES

Portuguese - Native/Bilingual

English - Professional Working

Spanish - Elementary

PROFESSIONAL EXPERIENCE

Frontend Senior Developer — Aubay

03/2025 – 11/2025

Outsourcing engagement

- TMO Platform: contributed to a B2B enterprise backoffice for financial operations, asset management, and automated reporting.
- Built scalable frontend applications with React 19, Next.js, and TypeScript, using a feature-first, clean architecture and reusable UI libraries with Tailwind CSS and Storybook.
- Designed and maintained backend services with Node.js, Express, Firebase, and Google Cloud Functions, applying DDD and microservices principles.
- Achieved full automated test coverage with Jest, NUnit, and Playwright, and delivered CI/CD pipelines using GitHub Actions, Docker, and Husky.
- Eurowings: led the complete refactor of the registration module, migrating it to Vue 3 within a new monorepo to modernize the codebase and improve long-term maintainability.

Frontend Senior Developer — Noatum

09/2024 – 03/2025

Outsourcing engagement via Amaris

- Developed a logistics application using hexagonal architecture to optimize transportation workflows for major clients, including Banco Santander and FC Barcelona.
- Implemented key features using Vue 3, TypeScript, and a custom Design System.
- Collaborated on code management and testing using GitHub Packages, npm, and Vitest.

Tech Lead Frontend — Bentley Systems

04/2024 – 09/2024

Outsourcing engagement via Jobbex

- Led frontend development for maintenance-area modules in clean-energy equipment software, overseeing code quality and team output.
- Defined architecture and best practices using Vue 3, React 19, and TypeScript.
- Managed the technical backlog and ran 1:1s; oversaw the rollout of new application versions.

Tech Lead Frontend — Ageas Seguros

05/2023 – 04/2024

Outsourcing engagement via Askblue

- Led frontend development for an internal and external product portal, managing a team of frontend developers.
- Owned code quality, technical direction, and participated in hiring for the team.
- Oversaw architecture and implementation in React 19 and Next.js, alongside Vue 3, while maintaining the technical backlog across multiple releases.

Frontend Engineer — Pricefy by Selbetti

05/2022 – 05/2023

Outsourcing engagement

- Developed and maintained web applications in Angular 14/15, applying best coding practices and a shared Design System.
- Worked within a Scrum team using CI/CD; used Git, npm, and Jest for version control, packaging, and testing.

Tech Lead Frontend — Tempo Assist

08/2021 – 05/2022

- Led the Frontend area, using Vue 3 and React 18 to build user-facing portals and dashboards.
- Owned code quality and team management, mentoring developers and running regular feedback sessions to unblock technical work.
- Designed a Design System using GitHub Packages and npm, standardizing components and documentation across internal and external products.

Frontend Engineer — Dock

09/2020 – 08/2021

- Developed and maintained front-end applications for banking transactions using Vue.js, Angular, and React.
- Worked within cross-functional Scrum teams, using Git and CI/CD practices to streamline code deployment.
- Implemented Design System components and managed package versions through GitHub and npm.

Frontend Engineer — Kovi

10/2019 – 09/2020

- Developed and maintained front-end applications for user registration, purchasing, and account management using Vue.js 2.
- Collaborated in a Scrum environment, using Clubhouse and Git for planning and version control.
- Implemented CI/CD pipelines and optimized GraphQL API consumption.

Frontend Engineer — Cielo

12/2017 – 10/2019

- Developed and maintained user-facing front-end applications using Vue.js, HTML5, and CSS3.
- Worked within an Agile/Scrum team delivering software updates and features on schedule.
- Integrated and consumed GraphQL APIs while implementing CI/CD pipelines for streamlined deployment.

Frontend Engineer — CoreBiz

01/2017 – 12/2017

- Developed and maintained e-commerce applications using Vue.js, Angular, and VTEX for clients including Boticário and TelhaNorte.
- Worked in an agile Scrum environment implementing responsive designs and optimizing user experience.
- Used HTML5, CSS3, Sass, Webpack, and Git as part of the core frontend toolchain.

Frontend Engineer — Microsoft

01/2016 – 12/2016

Outsourcing engagement via Isobar

- Developed and optimized the official Rio 2016 Olympics website under tight deadlines.
- Collaborated with cross-functional teams to build scalable applications using Angular, HTML5, CSS3, and JavaScript.
- Used Git and Bitbucket to manage version control and streamline collaboration.

Frontend Developer — Junior to Mid-Level — Grupo Abril (Editora Abril)

01/2012 – 12/2016

- Five-year tenure on the CASACOR brand site, growing from Junior to Mid-Level Frontend Developer within the same team.
- Led the migration of a custom in-house CMS to WordPress, improving long-term scalability and maintainability of the platform.
- Built responsive web experiences using HTML5, CSS3, and Bootstrap, later adding dynamic features with PHP, JavaScript, and jQuery.
- Worked with cross-functional teams to ship ongoing site improvements and new content features for a high-visibility design/architecture brand.

EARLY CAREER

Bradesco — Level 2 Support Analyst (2007–2012): provided technical support and training to end users, and collaborated cross-functionally to improve service resolution processes.

CSU Card System — Telemarketing Operator Level 2 (2005–2006): outbound sales and customer service, using CRM tools to track interactions; mentored new team members.

EDUCATION

Bachelor's Degree in Radio, Television and Digital Communication — Universidade Paulista (2010–2012)

COURSES & CERTIFICATIONS

Alura

- Frontend Engineer — Alura (2016)
- Angular JS Programmer — Alura (2017)
- UX Design — Alura (2017)
- SPA Developer — Alura (2017)
- React Developer — Alura (2017)
- JavaScript Engineer — Alura (2017)
- Vue.js Developer — Alura (2018)
- Web Accessibility — Alura (2019)
- Angular Programmer — Alura (2019)
- TypeScript and Angular — Alura (2020)

Udemy

- Tailwind — Udemy (2022)
- Vue 3 — Udemy (2023)
- React and Next — Udemy (2023)
- Node, Express, MongoDB — Udemy (2023)
- NextJS: From Zero to Advanced — Udemy (2025)

Certifications

- Certified AI-Empowered SAFe® Practitioner (SP) — Scaled Agile (05/2026)
